

Solution to the Alphametic puzzle

$$\begin{array}{r} 83042 \\ - \quad 391 \\ - \quad 8659 \\ \hline 73992 \end{array}$$

0	1	2	3	4	5	6	7	8	9
U	O	N	W	D	R	E	G	B	L

The following solution shows the correct assignment of letters to numbers that makes the calculation work.

Each assignment is unique and fulfills all conditions of alphametics.
